Weather

Strong gales along coasts. The maximum temperature yesterday was 91.0 and the minimum 75.6, the figures for the corresponding day last year being 84.7 and 66.2.

FRENCH NOT AFRAID BUT ASK JUSTICE TREATY GIVES

Briand Says Ethnical Considerations Will Predominate

ALL NOT GERMAN

Mine Is Mainstay Of Factory, But Need Not Be Unified

(French Wireless through Reuter)

Paris, August 18.—The French press publishes a statement by M. Briand, who had previously been prevented from expressing his opinion on the work of the Supreme Council by the parliamentary recess. After remarking that the controversy in the Supreme Council lasted long enough, the Premier affirmed his confidence in the ability of the Council of the League of Nations to find the basis of an opinion in conformity with the letter and spirit of the Peace treaty. The British Premier was wrong, he said, in attributing the attitude of France solely to a regard for her own security. The French Government was closely attached to the idea of justice and to a desire for a strict execution of the Treaty of Versailles.

M. Briand pointed out that the delegations at the Supreme Council were in agreement on two points, viz., that the Treaty provided for the partition of Upper Silesia and that ethnic considerations should predominate in arriving at an equitable division. From that agreement it proceeded to distinguish between the western part, contiguous to Germany, in which the majority of the population was undeniably German, and the western part, adjoining Poland, where the majority was incontestably Polish. On the introduction of economic considerations, the question arose of the delimitation of the industrial region.

The French view on this matter was that the mine was the mainstay of the factory, and that the mining area had to be taken into consideration as a whole, and not certain small clusters wherein the majority were Germans. Having recapitulated the differences of opinion between the French and British delegations on the question of the divisibility of the industrial area, M. Briand emphasised that the French delegation was favorable to the theory of divisibility.

He argued further that the industrial triangle should encompass all the districts which had common economic interests, such as the region of Rybnik, which furnished coal and coke to the industries of Koenigshuette. Yet this purely Polish region had been cut out of the industrial triangle by the British experts.

M. Briand urged that it could never be admitted that the Peace Treaty had been framed in the spirit of giving Germany, who had solemnly been declared responsible for the war, an enormous majority of Polish voters, while Poland only received a small minority of German voters, and this solely because Germany was able 50 years ago, with the money she seized from France, to establish her industries in a purely Polish region.

M. Briand maintained that, now that the League of Nations Council had been called upon to give its advice in an entirely independent spirit, the controversy should be suspended. He emphasised in conclusion, that the passing difference of opinion on the Upper Silesian question was unable to injure France's close union with her Allies.

On Wednesday afternoon M. Briand had a long conference with M. Leon Bourgeois, President of the Senate, and the principal French delegate to the League of Nations.

Viscount Ishii, as Acting President of the League of Nations, has called an extraordinary meeting of that body to assemble at Geneva on the 29th instant, for deliberation on the letter from the President of the Supreme Council regarding the delimitation of the Upper-Silesian question.

Famous Italian General Visits America

General Pietro Badoglio, who was Chief of Staff of the Italian Army during the World War, recently arrived in New York with two aides. He will be there for two months as a guest of the United States Army. General Badoglio is credited with the Italian victory over the Austrian Army.

Empress Of Russia Leaving With Mail For America Today

China Mail Liner Nanking From San Francisco Due Wednesday

Mail for America is being dispatched today on the steamer Empress of Russia of the Canadian Pacific Ocean Services which sails this afternoon. Mails to go on this vessel will close at the American Post Office at 3:30 o'clock for ordinary matter and at 2:30 o'clock for registered mail.

The Empress of Russia is due off Woosung about 11 o'clock this morning and the tender with incoming passengers will arrive at the Customs Jetty about 2 o'clock this afternoon. The outbound tender to the ship will leave the jetty at 5:30 o'clock this afternoon.

All mail that arrived yesterday on the steamer Empire State of the Pacific Mail, which docked at 4:30 o'clock, and on the steamer Hawaii Maru from Seattle was distributed and in the boxes at the American Post Office at 9 o'clock last night. The Empire State will be dispatched for Hongkong by way of Manila at 11 o'clock tomorrow morning.

The steamer Nanking of the China Mail sailed from Yokohama for Kobe yesterday and is due to arrive here next Wednesday morning. The Nanking will dock at the China Merchants' Central wharf and will be dispatched for Hongkong and Singapore on Friday.

The steamer West Caddoa, one of the Pacific Mail's round-the-world ships, docked yesterday at the China Merchants' Eastern wharf and will be dispatched for Manila this afternoon at 4 o'clock.

Not Growing But Selling Opium Is Charge Of League

(Reuter's Service)

London, August 18.—Questioned in the House of Commons today as to how the League of Nations proposes to enforce decrees as regards the discouragement of illicit opium in countries like China and Persia, Mr. E. Shortt (Home Secretary) replied that the League was entrusted with the general supervision and execution of the 1912 Opium Convention, the provisions of which required the signatories to enact effective regulations for the control of production and distribution, but it did not rest with the League to decide how much opium might be grown.

BRIAND WILL AID HARDING GROUND ARMS OVER WORLD

Pacific Questions Put Forth In Reply Of French Premier

HOOVER'S PLAN

Urges Protectorate In China But This Is Denied In Paris

(Reuter's Service)

Washington, August 18.—The State Department is informed that the Chinese delegation attending the forthcoming conference will number a hundred.

Senator Lodge called today at White House and conferred with President Harding for the first time since the announcement of his selection as a member of the American delegation. It is understood that they discussed conference matters.

(French Wireless through Reuter)

Paris, August 18.—Mr. Myron Herrick, United States Ambassador, called at the Quai d'Orsay, Wednesday, when M. Briand handed to him, for transmission to the American Secretary of State, the official reply of the French Government to President Harding's invitation to the Washington Conference.

In this reply the French Premier gladly accepts the invitation, and adds that he has decided to take part personally in the discussion on Pacific questions and disarmament. He expresses the hope that the labors of the Conference will be crowned with success, and will serve to consolidate peace, especially amongst the nations who have interests in the Pacific.

According to the Washington correspondent of the New York Herald Mr. Hoover, the American Minister of Commerce, has put forward the idea of submitting to the Washington Conference a plan for a sort of international protectorate over China. The Chinese Legation in Paris informs the Temps, however, that Mr. Hoover has made no such suggestion, and that it is without foundation.

With reference to the motion, of which Senator King was given notice, authorising President Harding to call together an international financial conference, to sit at the same time as the Disarmament Conference, the Temps understands that President Harding is personally opposed to such a proposal. Consequently the President has no intention of taking any measures with this end in view unless a demand for it is expressed at the Conference which is to meet in Washington on November 11.

Rubber Crisis Is Serious; Protect Holders Is Plan

(Reuter's Service)

London, August 18.—A number of leading London brokers have circularised shareholders of rubber companies, suggesting the formation of an association to protect shareholders' interests "in view of the serious crisis through which the industry is passing, and the possibility that many companies may go insolvent."

Oxford First Link In Wireless China

(Reuter's Service)

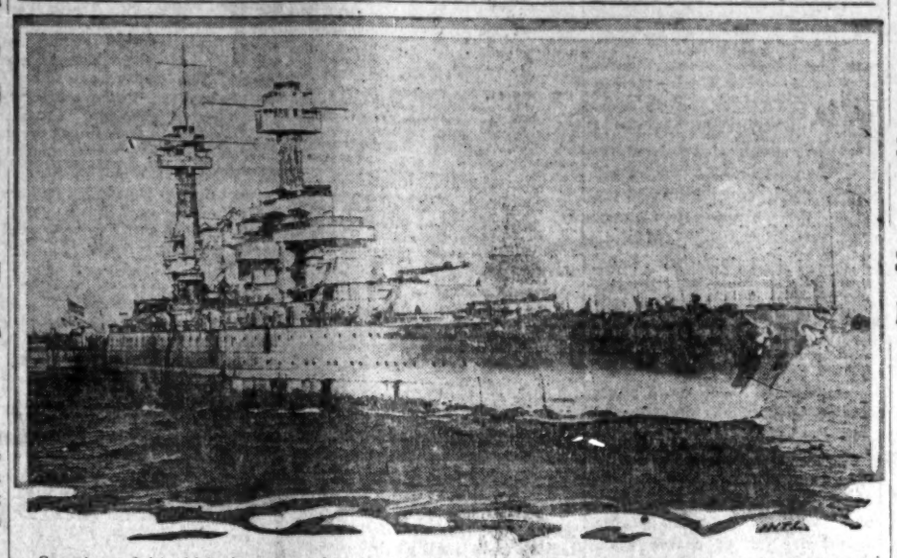
London, August 18.—The first station in the Imperial Wireless Chain, erected at Oxford was opened today. The Postmaster-General sent a message of greetings to all the British stations within range.

Red Cross' Head Dies In Geneva

(Reuter's Service)

Geneva, August 18.—The death occurred here today of Lieut-General Sir David Henderson, Director-General of the League of Red Cross Societies, which has its headquarters here. Born in 1862, he had a distinguished military career, and was Director-General of Military Aeronautics from 1913 to 1918.

World's Most Powerful Battleship, U.S.S. Maryland



Carrying eight 16-inch guns, the largest mounted on any warship in the world, the U.S.S. Maryland will put to sea early in November for her Government trials. This is the third of the electric ships for the U.S. Navy. Her generating plant, installed by the General Electric Company, driving the four 7,000 horsepower propelling motors for a ship speed of 21 knots, would supply sufficient electrical power for a city of 100,000 population. After her Government trials in November she will join the Pacific Fleet.

INGRATITUDE NOT VICE OF OURS IS PREMIER'S WORD

(Reuter's Service)

London, August 18.—In the House of Commons today, Mr. Lloyd George, reviewing the work of the Imperial Conference, dwelt on Japan's loyal interpretation of the Alliance, enabling us during the War to guarantee the transport of overseas troops, which otherwise would have been impossible as Mr. Hughes and Mr. Massey recognised. The Japanese help in chasing raiders was one of the turning factors of the War.

"Shall it be suggested that we now say to the Japanese, 'Thank you for standing by us in trouble, but we don't need you longer: good-bye!' Would anyone so behave in business? The British Empire must behave like a gentleman (cheers), and if it is suggested that we end the Alliance when the trouble is over, that would not be becoming to the Empire in dealing faithfully with an Ally (cheers). That does not mean that we are continuing the Alliance with any point against anybody else, certainly not the United States." (cheers).

It was a cardinal principle of British policy, continued the Premier, to act in complete accord with the United States (cheers). There was no country in the world with which it was more important to act in concert. It was most difficult to get an Englishman to regard the American as a foreigner. But he did not see why it was impossible to remember our obligations to Japan and at the same time preserve a spirit of fraternity towards the United States. If the Anglo-Japanese Alliance could merge into a greater understanding with Japan and the United States on all Pacific problems, that would be a great event and would guarantee the world's peace, because the problems of humanity tomorrow might be the Pacific Ocean. And the Powers chiefly concerned in the Pacific, namely the United States, Japan and the British Empire—(cries of "and China)—the Premier continued and China"—those four great countries were primarily concerned in having a complete understanding as regards the Pacific, and the surest way of making a success of any Disarmament Conference was first to have an understanding on the Pacific.

The whole of the British Empire, Mr. Lloyd George concluded, was agreed in the desire for complete friendship with the United States and the necessity of removing every conceivable obstacle to such friendship. Anglo-American agreement on great principles of world policy would be an absolute guarantee of peace; and he was still hopeful that such an understanding as would make us feel that such a partnership could be established would ensure the result of the Washington Conference.

Police Investigating Mystery Surrounding Kalee Hotel Tragedy

Not Yet Established That Alexander Lang Killed Self In Plunge From High Window—Inquest Is Opened And Adjourned

Efforts of the police department are being devoted to an attempt to solve the mystery of the tragic death of Mr. Alexander Lang who plunged from a room on the topmost floor of the Kalee Hotel into Kiukiang Road at 2 o'clock yesterday morning. Several circumstances in connection with Mr. Lang's death point to suicide, but this has not been definitely established and in order to give the police time to make a complete investigation the inquest, which was opened yesterday at the Mortuary by Mr. G. W. King, coroner, was adjourned for one week.

Mr. C. T. Clack was the only witness heard at the inquest and the testimony he gave consisted of a repetition of his statement published by THE CHINA PRESS yesterday in its report of the tragedy. Mr. Clack is the manager of the New York branch of Robert Grant and Company, a leading British iron and steel concern with headquarters in Glasgow. Mr. Clack came to Shanghai some months ago to take charge of the Shanghai branch of Robert Grant and Company temporarily pending the arrival here of Mr. Lang who had been appointed Shanghai representative of the firm.

HERE ONE WEEK

Mr. Lang arrived in Shanghai on August 11 on the steamer Ascanius and with a fellow voyager, Mr. A. C. Macpherson, went to live at the Kalee hotel. Mr. Macpherson sailed for Japan Wednesday and after his departure Mr. Lang changed his quarters from an inside room the two had occupied to one overlooking Kiukiang Road.

Mr. Clack said that Mr. Lang had taken over his new duties in the office here with enthusiasm and gave every evidence that he was pleased with his new surroundings. Mr. Lang was a man of 38 years, highly trained in the iron and steel industry and a native of Coatbridge, a steel center near Glasgow where Mr. Lang's widow and seven children are residing. It was understood that his family was to follow him to Shanghai.

Mr. Clack said at the inquest yesterday that he had taken dinner with Mr. Lang on the evening before the tragedy and had seen him last about 9 o'clock in the main office of the hotel. He said Mr. Lang had at no time appeared to be depressed and had not voiced any expression of dissatisfaction, but appeared to be in ordinary health and spirits.

One of the points of the problem with which the police are engaged is the question of Mr Lang's whereabouts between 5 o'clock in the evening and the time of his death at 2 o'clock the following morning. Attendants at the hotel who have been questioned have been unable to throw any light on this question as apparently no one at the hotel noticed whether he left the hotel in the course of the evening and he was not seen when he went to his room.

BED NOT USED

The room itself immediately after Mr. Lang's death had no sign of disorder. The personal belongings of the victim were on a dresser in a corner near the window, several magazines were on a center table and the bed had been unoccupied. No final message or scrap of writing was found in the room and it is not known whether Mr. Lang posted any mail matter before he died.

That portion of the hotel structure on Kiukiang road beneath the window from which Mr. Lang plunged is but a storey in height with a roof probably eight or ten feet in width. This furnishes the strongest element in the case that points to suicide, for an object or a person falling from the window about 80 feet above, would have struck the roof of the one storey portion of the building. The place where Mr. Lang crashed into the roadway is well beyond the curb line.

It was disclosed at the inquest that the victim had removed his shoes and his hat which were found in the room. A broken coping near the window of the room was also mentioned as a possible clew in the case.

Chief Detective Inspector J. Burnside represented the police at the inquest and it was at his request that the hearing was adjourned for a week.

Typhoon Warning Is Again Sounded

For the second time this season the typhoon gun was fired at 4:32 yesterday afternoon, and Chinese shipping along The Bund departed to the safer regions of Nantao and to the Pootung side of the Whangpoo. A warning was given a week ago, but the typhoon passed south of Shanghai.

These typhoons belong to what is called the second group, and keep a general west and northwesterly direction. The moon is now in the full, and the tide at the highest flow, which will increase the danger to shipping should the typhoon hit Shanghai and the Yangtsze.

Poles And Germans To Exhort For Unit Work

(Reuter's Service)

Berlin, August 18.—The conference at Kattowitz between German and Polish representatives was highly important. It included a number of members of the Reichstag representing all parties, in addition to the leaders of all German trade unions. The Poles present included M. Skolny (who is M Korfanty's successor as Polish Plebiscite Commissioner) and trade union leaders. The conference decided to issue identical manifestoes to the population of Upper Silesia, exhorting peaceful co-operation, and also to form German and Polish committees to aid in the maintenance of order.

PEACE WITH SOUTH IS MUKDEN'S WORD TO WU; BUT FIGHT STILL IS ON

Sun Yat-sen's Force Of 74,000 Men Is On Way North, Yet Chihli Army Fights On Despite Clamor Of Hupeh And Hunan For Self Government

SELF RULE TO BE GIVEN STEP BY STEP

Not All At Once Says Hsiao Yao-nan Lest It Endanger Project Now In Mind Of New Tuchun —Situation So Serious Genl. Wu Goes To Front

BY JAMES L. BUTTS
(Staff Correspondent of The China Press)

Hankow, August 19 (8:25 p.m.)—In view of the expected compromise with the Southern forces under Dr. Sun Yat-sen, Hsiao Yao-nan says he is confident that the fighting will be confined to the two Hus, Hunan and Hupeh. Wu Pei-fu and Hsiao says they are working for the interests of Hupeh, but this statement has not lessened the fighting by a jot.

Wu Pei-fu has not yet committed himself as to whether he will accept the High Inspectorship, while Hsiao says he is in favor of self government but it must be achieved step by step and not all of a heap as precipitation would endanger its stability and the reunification project now in mind. He is against the continuation of the present fighting.

Wu Pei-fu still is at the front. He has notified the foreign consuls that he will return their calls when he comes back.

Wu's Troops Win But May Yet Be Defeated

(Staff Wire To The China Press)

Hankow, August 19 (10 a.m.).—Troops of General Wu Pei-fu regained Hsinti yesterday but may lost Hsienlin where the Hunanese are pressing hard. Heavy fighting is expected today at Chinlingchi, which is 45 li from Yochow.

General Wu Pei-fu is watching the operations personally and is issuing his orders from a gunboat near the fighting zone. The routed troops of ex-Tuchun Wang Chan-yuan, who are now under the command of Sun Chuan-fang, Wang's aide, and stationed in Wusueh, threaten to loot the city. Tuchun Hsiao Yao-nan has despatched a detachment to Wusueh for eventualities. Sun Chuan-fang is reported to have attempted to commit suicide, but was saved by his subordinates and sent to hospital where he is now under close watch.

Following the refusal of the Chambers of Commerce in the Wuhan cities to advance money, General Wu has appointed 70 collectors to gather funds at the various railway stations between Chengchow, Honan, and Hankow.

Tuchun Yen Shih-shan of Shansi has refused to send any expeditionary forces to Hupeh to aid General Wu.

A Tsinanfu telegram states that troops guarding the residence of Wang Chan-yuan at Kwantao, Shantung, have deserted their posts after looting five shops. An attempt to loot the home of Wang Chan-yuan failed.

Chang Tso-lin, the Mukden warlord, has despatched a congratulatory message to General Wu, in which he expressed the hope that Wu would negotiate with the South for the unification of the nation.

The Chinese Banking Concortium has lodged a protest with the Ministry of Finance against the seizure of the revenue along the Peking-Hankow Railway by militarists. The receipts had already been offered to the Chinese banks as security for the Railway Car Loan. Mr. Pan Fu, the Acting Minister, has consented to ask General Wu to raise military expenses from some other sources.

Sun Sending 74,000 To Attack Wu At Hankow

(Staff Wire To The China Press)

Hankow, August 18 (6:55 p.m.).—The most sanguinary combat yet seen in the internal strife is about to be staged here where it is learned that Dr. Sun Yat-sen is sending General Chen Chung-ming, the "ever-victorious" commander, at the head of an army of 74,000 Cantonese crack troops to attack Hupeh. As a result, the Hunan camp has been greatly encouraged in its onslaught. General Chao Heng-ti, the Hunan leader, has been assured of re-inforcements from Dr. Sun Yat-sen.

Serious fighting continues. One of the government gunboats is reported to have been sunk by the rebels in Hunan. General Wu, who is personally conducting the warfare, did not return from the front to his headquarters last night, but he is expected to come back tonight.

The Hankow civilians have organised a disarmament convention. A preliminary meeting took place today at the Tea Guild and it is appealing to both sides for an armistice.

The Chambers of Commerce in Wuchang and Hankow have declined to lend any money to General Wu, stating that they had already been bled white by Wang Chan-yuan. They suggest that he borrows some money from the Chinese Consortium in Peking.

Denounces Wu Pei-fu As Enemy Of Liberty

Hankow, August 15 (Delayed).—General Chiang Tso-ping, leader of the Hupeh insurgents, is circularising the provinces with a memorandum, denouncing the substitution of Northern militarism for Wang Chan-yuan's oppression of the people. He stated that the present tuchun, Hsiao Yao-nan and the High Inspector-General of Hupeh and Hunan, Wu Pei-fu, are public enemies of Hupeh.

Reports are again current that Canton is co-operating with the insurgents in their campaign against Hupeh.

Tuchun Hsiao Yao-nan has sent Chin Yung-ao, the Premier's brother, to interview the allied commanders for peace negotiations.

The routed troops of Wang Chan-yuan looted Kinliu and Hsinti today. Both cities were burned in part although the casualties were slight.

(Reuter's Pacific Service)

Hongkong, August 19.—The terms of the Kwangsi-ites for the surrender of Lungchow being considered unsatisfactory, General Chen Chiung-ming has ordered an attack on the city.

Hankow, August 18.—According to news from an authentic source, the Hunan party has seized the salt-works at Shasi. It is reported that a British gunboat has gone up to protect.

The indications which have pointed to the Hunanese troops having been steadily driven back, are confirmed by a steamer which arrived at Hankow today.

General Wu Pei-fu is ubiquitous, and is energetically organising the movements of troops and other military matters. It is believed that he is taking over complete control of the railways. Mails are very heavily delayed.

Canton, August 18.—Mr. Ma Chun-wu has been appointed Governor of Kwangsi. General Wei Yung-chang has been charged with the duty of disbanding the superfluous Kwangsi troops. General Chen Chiung-ming will only act in a supervising capacity. He will return to Canton within a month.

Strikers Lose Six And Maybe Twelve Shillings Of Wage

(Reuter's Service)

London, August 18.—After a strike, lasting eight months, which has incalculably injured a number of industries, the ship-yard joiners are resuming work on the basis of an immediate reduction in wages of six shillings a week, with a further reduction of three shillings a week in October, and a possible additional three shillings in December.

PLAINTIFFS FAIL OVER CLAIM ON STEEL CONTRACT

Mixed Court Dismisses Case Against Chinese Contractor

Judgment in favor of defendant was delivered yesterday in the Mixed Court in the claim of the China Commercial Pacific Co. against Kung Shun Sing Building and General Contractors for G.$13,207.20 less Tls. 2,009.33 for alleged failure to take delivery of certain steel bars contracted under date of May 22, 1920.

The case was heard before Assessor Jacobs and Magistrate Yui. Mr. F. J. Schuhl appeared for the defendants while plaintiffs were represented by Messrs. Fleming, Davies and Bryan.

The text of the judgment is as follows:

"In this action the plaintiffs pray for judgment in the sum of G.$13,207.20 less Taels 2,009.33 because of the failure of the defendant to take delivery of certain cargo of steel bars, contracted for under indent order No. 2061, dated May 22, 1920.

"The defendant denied the contract altogether or that he ever had any business transactions with the plaintiffs in steel bars.

"By way of documentary evidence the plaintiffs produced a contract and a letter both bearing the supposed chop of the defendant. This chop has the following English words "Kung Zun Hsin" and "Contractor" and the three Chinese characters composing the hong name. This chop the defendant denied as his own and produced a chop which he alleged was the proper chop. It bears the English words "Kung Zun Hing Building and General Contractor Shanghai" and the three characters of the hong name.

"The plaintiffs' first witness was their manager, Mr. Bunn. He testified that the contract was handed to him already signed with the supposed chop of the defendant as was the letter signed with the same chop authorising him to sell the cargo for the defendant's account He never actually saw the defendant at all in connection with this contract. He further testified that certain payments amounting to Taels 2,009.33 had been made as margin money but that they were not made by the defendant in person.

"The second witness for the plaintiffs was a shroff who saw the defendant twice; on one occasion to demand that he take delivery and the other to assist in his arrest. He, however, knew nothing of the signing of the contract. The plaintiffs' third witness was their present compradore (not the compradore at the time the contract was signed) who testified that he knew nothing of the signing of the contract but that he was present when the defendant was taken into custody at which time the defendant denied that he had ever signed the contract. He also testified that he had received Taels 300 on this contract as margin money, same having been paid to him by a man purporting to be the defendant's accountant. The defendant denies that he ever sent his accountant to pay any such sum.

"In view of the above testimony and the defendant's denial of the entire transaction, the Court finds that the plaintiffs have failed to prove that the defendant signed the contract; they have failed to prove that the chop on the contract and the letter was the defendant's; they have failed to prove that the chop produced in Court by the defendant as his proper chop was a forgery; they have failed to prove that the person who paid the margin money was an agent of the defendant.

"The plaintiffs' petition is therefore dismissed."

Russian Grand Opera Co. Leaves Today For Japan

The Russian Grand Opera company which recently closed a long season of Russian and standard operas at the Lyceum theater is leaving for Kobe this morning for a tour of Japan prior to its trip to America.

Performances will be given at Kobe, Osaka, Kyoto and Tokio, until the middle of November. The company proceeds from Yokohama to Honolulu for a two weeks engagement after which they go to San Francisco. The winter season will be played in the States, and the summer of 1922 will be given to a tour of South America according to the present itinerary of the company.

SOVIET RUSSIA AS IT IS TODAY

BY WILLIAM Z. FOSTER
(Rosta News Agency)

Moscow (by mail), July 20.—A visitor to Russia, even though wealthy, would find it almost impossible to live by his own resources. This is because all the industries of the country are nationalised, and only those people who work (or enjoy the hospitality of the government) are permitted to use them. This is a workers republic and the open-seasame to everything is to be credantialed as a producer. Without that one is lost. Money is practically valueless, not because people have lost faith in the Government, but because money has little or no function under Communism. You cannot buy anything substantial with it.

A visitor trying to get along alone would be unable to go to a hotel because they are all owned and controlled by the government. Nor could he eat at a restaurant, since there are none, all the workers and visitors being assigned to the eating-places in their factories, homes, and hotels. He could not buy himself clothes for making of garments has been nationalised and the apportionment is in the hands of the workers government. He would be unable to buy a newspaper, as they are given only to workers in the shops. He could not go to a theater, because the seats are not for sale. In Russia in order to go to a show one gets his ticket from the secretary of his labor union, each secretary being allotted a prorata share of seats from all the theaters.

BEATING COMMUNIST SYSTEM

It is conceivable, of course, that our wealthy class might be able to beat the communist system temporarily in these days of revolution by dealing with the speculators in feodstuffs and other necessities and sleeping wherever he could. But at best he would lead a precarious existence and would probably find it convenient to go to some other country, where the workers are plucked more easily than they are in Russia. The government does not say that you have to work; it merely says that if you do not work you shall not have the benefit of the industries.

With the worker's government controlling all the principal necessities of life the reason for the existence of retail stores has departed and practically all of them have closed their doors. To see the thousands of stores of every description nailed up tight is one of the sights of Russia. The famous Nevsky Prospect of Petrograd, with its hundreds of formerly rich shops, now boarded up, is a spectacle to make the parasites of the old regime weep tears of anguish. Almost the only stores open are those controlled by the state; however, by virtue of a recent law, small trading is allowed, and one may purchase, at fabulous prices, odds and ends from peddlers and speculators.

FOR WORKERS ONLY

Just now Russia is suffering from a tremendous shortage of necessities, because of the terrible imperialist and civil wars. But such as the stores and services are, they are placed absolutely freely at the disposal of the workers. If you want to take a railroad journey you apply to the secretary of your union, who not only arranges for the necessary lay-off, but also for the ticket, which is free. To ride on the street cars all that is necessary is to show your working card. There are no fares, nor can non workers ride. To mail a letter you just drop it in the box, no stamp being required.

In such a social system of applied Communism, where all the necessities and luxuries are equitably divided among the workers, money, as I said is virtually useless. In fact, many of the workers here go for months without a bit in their pockets nor do they need it, except for such articles as the government does not handle yet. If there are any quantities of substantial products to be had the government deals them out free, anyhow. On the train with me coming into Russia were several revolutionary refugees from Esthonia. They threw their money away on crossing the border, saying that in free Russia they had no further use for it. I have been in Moscow a week and have not had a cent in Russian money, and yet I have been to the theater several times and otherwise comported myself in an extravagant manner.

PAPER CURRENCY HATED

There is a degenerate paper currency in circulation here, but all the active spirit of the new society hate it. They look upon it as the sign-manual of the enemy, Capitalism, and one of the most insidious weapons ever forged by human ingenuity to keep the workers in slavery.

Curious to know what would happen to counterfieters of such a despised currency, I inquired of a very active militant. He answered: "Oh, of course when caught they are punished; but then, after all, they do a sort of service by relieving the strain on the government printing presses." So has the god, Money, fallen in Russia.

The money here is only a holdover from Capitalism. It may be confidently expected that when the new society gets thoroughly established, and, being fully recovered from the havoc of wars, is able to furnish the workers an abundance of supplies, all need for petty trading of every sort will disappear and the entire monetary system will be abolished.

Pacifique Co. Has Huge Loss; Won't Liquidate As Yet

(Reuter's Service)

London, August 18.—The Financial News Paris correspondent quotes from the Agence Economique et Financiere that the last business year of the Societe du Pacifique has resulted in a loss exceeding francs 50,000,000, of which 45,000,000 was "exploitation loss." The loss exceeds three-quarters of the capital, but the advisability of liquidation was deprecated, as it would mean that shareholders would lose the benefit of the agreement with the principal creditor, the Banque Industrielle de Chine. The chairman said that the amount of the debts to the Banque Industrielle was francs 150,000,000. The banque also held 6,458 shares in the Societe. The latter was endeavoring to regulate its debts and realise its stocks of merchandise, otherwise its activities would be stopped and its fleet idle, as freights under eight shillings were unprofitable.

The shareholders' meeting authorised a continuance of business and a reorganisation scheme.

Conditions At Mokanshan Criticised By Secretary

Milk Bad, Ice Worse And Transportation Needs Reorganisation, He Says; Blames Missions For Failure To Supply Medical Man

Bad conditions as to milk and ice supplies, coolie charges, transportation and lack of medical attention are stressed in the report just issued by Mr. R. D. Smart, secretary of the Mokanshan Summer Resort Association.

With regard to transportation the report says: "A few instances of pilfering by the baggage coolies: All these cases are now under consideration, with prospects of correction next year."

The rates for baggage and chair coolies are higher this year, the secretary reports, than ever before. He continues:

"The serious aspect of this is not the cost of transportation to the mountain and back, but rather it has a decided tendency to raise the standards of rates for all labor."

As to milk:

"The milk supply has been a source of trouble and dissatisfaction as to quality and prices."

He charges that there is a combine between the milk dealers to boost prices and resist inspection.

And again:

"The ice king seems to have taken advantage of the short ice crop of last winter and successively raised the prices. And this is also at his own weight, his own accounting and his own slow coolie delivery."

Under the head of medical attendance the secretary says:

"The blame for not having an association doctor on the hill this year does not rest on the executive committee nor on the dispensary committee. It rests rather on those Missions that did not see their way clear to adopt the recommendation providing a rotation of Mission doctors here. With five or six large Missions working in this section of China, and four or five doctors in each Mission, together with new men coming out every year, it means that no man need necessarily be called for more than one season's service here in twenty-five years or so.

"The mountain has not been without medical attention, however, and Drs. McKenzie, Sweet, Buckingham, Manget, and possibly others, have been caring for the medical needs of the hill."

This is by private contract, he explains, and not by arrangement with the association.

Donkeys and beggars are placed in the same class in the report. The visitors are warned against beggars, who are described as professionals and donkeys are said to "attract flies, break up the roads and are a general nuisance."

Attention is called to the plan that is under way for the construction of a new Assembly Hall next Summer. It is to cost $10,000.

Mr. H. H. Taylor has been appointed to succeed Mr. C. Pape as resident agent with duties particularly pertaining to roads, sanitation and caretakers.

Tribute is paid to Rev. A. P. Parker who was formerly representative of the executive committee.

Boy scouts took a census this summer which showed the population to consist of Americans 385; British 300; German 15; French 16; Norwegian 16; Swiss 4; Korean 1; Russian 4; Chinese, including servants, 479. The total was 1218.

Officers elected for the year are Rev. A. P. Parker, President; Rev. J. V. Latimer, Vice-President; Rev. R. D. Smart, Secretary, Mr. H. M. Smith, Treasurer; and other Directors: Messrs. Bromley, Black, Fryer, Goddard, Hendry, Gracie, Manget, McDaniell, McKenzie, McRae and Morgan.

Church directors are Messrs. Bakeman, Crawford, Gracie, Hawk, King and McMillan.

GUARANTEED SCRUBBABLE
W.H.C. SUPER-DURABLE FLAT PAINT
FLAT WALL FINISH

A perfect Paint of smooth surface for Interior Wall Coating

The surface obtainable with this paint is smooth and flat, i.e., it is not a grainy, dead, lifeless finish, but of a velvety texture. It dries in a reasonably quick time, so that work can be carried out effectively, yet has the property of remaining open long enough to enable the worker to cover a large surface of wall without making laps or edges.

Excellent results with Super Durable Flat Finish are easily obtained, irrespective of the skill of the user, and an elaborate preparation of the surface is usually quite unnecessary.

Super Durable Flat Finish has been tried on non-absorbent surfaces of all kinds and where distemper and oil paint have proved prone to shell or flake off, it has always adhered. It gives a lasting finish of surprising beauty.

1 Imperial Gallon covers about 130 square yards one coat.

Twenty Ships With Crews Missing Raises Pirate Theory

FLEET VESSEL IS THIS SHIP OF MYSTERY

Five Merchantmen Sight Her But No Navy Vessel Tho' Many Seek

BY RANDOLPH C. SHAW

Washington, July 14.—From reports furnished by the five vessels which have sighted her, Government official investigators have pieced together a composite description of the mystery ship which many believe is capable of furnishing a solution to the unexplained disappearance of twenty odd merchantmen.

The latest to report sighting the stranger is the Shipping Board vessel Craigrownie. As the description furnished by Captain Herbert W. Wallace of that ship tallies in practically every respect with those already in the hands of the Government, officials believe the same vessel was seen by all.

According to the report which will be sent out to navy, coast guard and merchant craft, the mystery ship is of approximately 2,500 tons, presumably an oil-burner, low in the water with a bow resembling the clipper type, a pilot house set well aft and capable of a speed ranging from 18 to 25 knots an hour.

That the possible buccaneer possesses great speed was made certain with the receipt of the report from Captain Wallace. According to his story, the mystery ship completely circled his craft, and a similar happening also was reported by the Munalbro and the Croxteth Hall.

Officials of the Bureau of Navigation who were shown the description incline to the belief that the vessel is of American build, and in support of this contention they point out that the clipper type bow distinctly is a product of America.

If the Raider is an oil-burner as indicated from all reports, the problem of her re-fueling, which has from the start of the investigation puzzled Government officials, now seems less important to them.

It would be possible, they contend, for the Raider to put into many obscure Mexican or southern ports to obtain oil supplies without exciting undue suspicion, or such re-fueling might be obtained from some of the ships which have fallen victims.

Secretary of the Navy Denby said that thus far no Naval vessel has sighted the mystery ship, but he indicated that the Navy Department was prepared to accept descriptions furnished by reliable merchant navigators such as those already heard from.

The seven seas are being searched by ships of the U.S. Navy in the hope of finding some trace of the twelve or more vessels which mysteriously disappeared. Government officials in discussing the case hinted at piracy of the kind that harks back to the days of Captain Kidd. One theory is that bootleggers are using the craft in liquor running in the South. The map shows where the Carroll A. Deering is believed to have gone down, while the question mark takes in the territory of the mid-Atlantic seaboard, where other ships are thought to have disappeared.

ONE OF THE 20 MISSING SHIPS

The schooner Carroll A. Deering, of Portland, Maine, which, it is believed, is one of the twenty or more missing ships that may have been boarded by pirates off North Carolina Beach. W. B. Wormell, of Portland, was the captain of the vessel, which was found wrecked on the beach. His daughter, Miss Laura Wormell, is responsible for the investigation which is now being made into the mystery of the lost ships.

PORT SHANGHAI GAINS BUSINESS

Vladivostok Shipments Also Increase, But Freight Rates Continue Low

(*Japan Advertiser*)

Shanghai is attracting increased attention as a shiping port. During the great boom in shipping, Hongkong, Singapore, Java and Bombay as well as Japanese ports showed great activity, but the shipping situation at Shanghai was comparatively quiet. Since the war, however, Shanghai has gradually increased its marine activity, especially since many American ships were placed on the Oriental lines. Many British ships touch at Hongkong, and a similar position is being assumed by Shanghai in regard to American ships. There is also increase in the number of vessels of other nationalities calling at Shanghai. This tendency is expected to be further accelerated by the recent increase in shipments from that port to Europe.

In Vladivostok there is reported to be a considerable concentration of tonnage. Shipments of beancake for the season have for the most part been completed, but there are still continued large shipments of beans and wheat, arrivals of which at Vladivostok are increasing on account of the cheap freight charges of the Chinese Eastern Railway. During June no less than 100,000 tons were shipped from Vladivostok, but many ships which had until recently been operating in South China waters have been concentrated in the Russian port, and the supply of freight space is greatly in excess of the demand. As a result, in spite of the continued activity in shipments, freight rates show a decline. For instance, the beancake rate for Kobe stood at about 22 sen per picul in May, but the present rate is 12 or 13 sen.

Two time contracts have been made on the charter market. The Aizaawa Maru XXI., 2,100 tons, has been chartered to the Yamashita Kisen Kaisha at Y3.2 for a single trip on the Formosan run, delivery to be made in July and the Kirishima Maru X., 1,60 tons, to the Nippon Paper Company at Y3.2 for three months' service in the first section of the near-sea area, to be delivered in August. Both rates are comparatively high, and this is due to the fact that the contracts are for a short period. On the ocean freight market, the England Maru has contracted to carry timber from Partland to Japan at $11.50. This rate shows a rise of 50 cents compared with the Kaisho Maru which was previously fixed for a similar service at $11. The Oridono Maru is to carry 7,500 tons of coal from Karatau to Bombay and Karachi. The freight rate is not definitely known, but is understood to be about Y11, or the same rate at which the Shiroshika Maru previously undertook a similar service.

Japanese Fishers Are Fired Upon

(*Special Cable Service*)

Tokio, August 18:—The Russo-Japanese Fishing Company states that it has received a telegram to the effect that Japanese trawlers off Kamchatka were fired on by the Vladivostok Government patrol vessel Magnet on the 7th inst., following upon an unsuccessful attempt to confiscate the trawlers.

China Delighted To Aid In Disarmament

Peking, August 18.—Reuter has been favored with the following expression of President Hsu's opinions regarding the Pacific Conference:

After referring to President Harding's request for an expression of China's opinion, which the American Charge d'Affaires communicated to the Chinese Government on the 12th inst. without formally inviting China's participation, the President says he is confident that the Chinese people will be delighted to take part, and he believes that the Conference must be beneficial not only to the Far East, but to the world in general, for the Chinese are a peace-loving nation, and they have seen the serious effects of the world-war both during and after the period of warfare. Since the war, the world has turned its attention more to the Far East and the Pacific, and China is located on the shores of the Pacific.

Reviewing the history of international relations for some ten years, and those of recent date, the President says it will be seen that there are many involved questions which might lead to international complications. Moreover, not all the Powers are willing to settle disputed questions according to fundamental principles. This fact not only retards peace, but is likely to stir up the international situation to a much greater extent.

The President believes that the whole Chinese nation in giving consideration to the forthcoming Conference will be united in hoping that the Conference, as regards these, their sincere hopes, before the peoples of friendly nations.

Pacific and Far Eastern questions, will first decide, and then establish just international principles, under which all international questions will be dealt with, and that thus future complications will be avoided.

The President concludes by welcoming the Conference on behalf of the people of China and placing

CASTORIA

for Infants and Children.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells, which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying power, are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them wilfully with narcotics. Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

The signature of Chas. H. Fletcher guarantees genuine Castoria

Physicians Recommend Castoria.

"Your preparation known as Castoria I have used for years in children's complaints and I have found nothing better."
JOHN J. LEFFA, M. D., Cleveland, Ohio.

"I have prescribed your Castoria in many cases and have always found it an efficient and speedy remedy."
A. F. PEBLER, M. D., St. Louis, Mo.

"For several years I recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."
EDWIN F. PARDEE, M. D., New York City.

"I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild, harmless effect and freedom from harm."
EDWARD PARRISH, M. D., Brooklyn, N. Y.

"Your Castoria is a meritorious household remedy. It is purely vegetable and acts as a mild cathartic. Above all, it does no harm, which is more than can be said of the great majority of children's remedies."
VICTOR H. COFFMAN, M. D., Omaha, Neb.

"Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a pure and reliable medicine for infants and children, in fact it is the universal household remedy for infantile ailments."
J. A. PARKER, M. D., Kansas City, Mo.

Children Cry for Fletcher's Castoria.

TWO TEACHERS JOIN KULING SCHOOL STAFF

Kuling, Aug. 15.—Two new members will be added to the staff of The Kuling American School this fall—Miss Dorothea Hart, and Mrs. Ada N. Kennedy. Miss Dorothea Hart, accompanied by her sister, Miss Rose Hart, who is to join the staff of the Shanghai American School, arrived on the s.s. "Empress of Russia" on August 5, and both young ladies are now in Kuling. The Misses Hart are daughters of the late E. H. Hart, M.D., who for many years was a medical missionary in the Methodist Episcopal Mission of Wuhu. Both young ladies lived in China for many years during their childhood and young womanhood, but have been in The United States for some years. They have many friends in China, and are enjoying the privilege of renewing old friendships with friends who are spending the summer in Kuling.

Miss Dorothea Hart joins the staff of The Kuling American School to take charge of the fourth and fifth grades. She comes well prepared for this work having had training both in kindergarten and primary work. She taught for three years in Chicago schools.

Mrs. Ada N. Kennedy joins the staff in the capacity of matron and housekeeper. Mrs. Kennedy is a Wellesley College graduate, and for some years has been engaged in active missionary work in Tangsi. Mrs. Kennedy is an accomplished violinist, and in addition to her other work, will give instruction in violin to those desiring same.

The Kuling American School will open this fall in its new $70,000 building. This now is nearing completion and will be ready for occupancy early in September. The new building is a large and handsome structure on Lot 170 at the south end of the Kuling Estate. The building is of brick construction with reinforced concrete stairs and corridors which make the building practically fire-proof. The roof is of Hankow red tile which adds much to the appearance of the building. It is lighted by electricity, and is being fitted throughout with new equipment including desks, furniture, and the very latest type of dormitory beds which have just recently arrived from America.

Mrs. Stillman's Mother Guest Of Monarchs

King And Queen Of England Show Unusual Honors To Mrs. Potter

BY GERTRUDE LADY DECIES

London, July 15.—While Mrs. Fiji Potter Stillman is fighting the battle for her honor in the United States, her mother, Mrs. James Brown Potter, was signally honored when King George and Queen Mary visited the Island of Guernsey in state this week.

By the special demand of their majesties Mrs. Potter was presented at the Governor's house. Following the invitation Mrs. Potter sent to the royal yacht a large bouquet from her own gardens. The flowers were wrapped in an American flag, and bore the message:

"The flag is my mascot. I present it to you with an expression of the hope that the two greatest nations on earth may always be united in friendship."

To this King George replied:

"I shall always cherish your flag. I am doing all in my power to bind our two nations into a lasting friendship which means as much to the world's peace."

Queen Mary asked the former famous actress if she has closed her stage career.

"Yes," replied Mrs. Potter, "but I still recite."

Lady Minto, secretary to the Queen, wrote from the royal yacht:

"The Queen commands me to write and thank you and Colonel and Mrs. Hazard for the lovely flowers you have so kindly sent with the American flag. Her Majesty much appreciates this token of loyalty from the American residents of Guernsey."

Colonel Roland Hazard was aide de camp to General U. S. Grant. His homestead is at Newport, L. I., but he has lived in Guernsey for many years.

Prince To See Japan And Also China On Trip

(Reuter's Service)

London, August 18.—While no official announcement has yet been made, it is understood that the Prince of Wales will proceed to Japan next year on the conclusion of his visit to India.

The Daily Telegraph, in expressing satisfaction at this project says:

"Japan is lined to the British Empire by an alliance which is likely to retain its validity, even if it should cease to be registered as a formal compact.

"We like to think that Japan is the Britain of the Far East and the peoples of both island nations have too much in common to regard each other with indifference. We may mention as points of similarity the attachment to the Throne, and the possession of young and able princes.

"We believe that the Japanese will appreciate the promptitude with which Prince Hirohito's visit is returned. We are convinced that the Prince of Wales will be welcomed as respectfully in Japan as at the Dominions centers where he has already been, and that he considers a trip to Japan a necessary chapter in his education."

S.M.C. CHAUFFEUR SENTENCED TO ONE YEAR'S JAIL TERM

The chauffeur who drove the Municipal Electricity Department motor lorry which knocked down and killed a handcart coolie on August 9 on Avenue Foch was sentenced in the Mixed Court yesterday to one year's imprisonment. The prisoner was charged with manslaughter. The police had considerable difficulty in tracing the accused and the lorry, because accused had, without waiting to ascertain the damage that he had done, left the dead man along the street after the accident.

The matter was reported at the Police Station by a handcart coolie, who said that the lorry was loaded with bundles of wood and bamboo ladders. One of the bundles of wood had dropped off, and this he brought with him. A careful examination of the bundles of wood revealed the stencilled words: "Westcott's Cables" followed by the name of a ship. This in itself was invaluable, and the lorry was definitely proved to be one of those employed by the S. M. C. electricity department. Application was at once made for assistance to the foreigner in charge of the department's lorries, who discovered that one of them had received a dent, as though from an accident on that day. The driver was charged with the offense, and admitted having run down a coolie and failing to stop. He was at once arrested, and at the inquest a verdict of manslaughter was returned against him.

PARLIAMENT TO STAND BY TILL CRISIS IS PAST

(Reuter's Service)

London, August 18.—Owing to the state of uncertainty in regard to the Irish situation, Parliament is not being prorogued at present, but both Houses will adjourn from tomorrow until October 18, the Speaker having the power to summon a meeting earlier, if desired.

London, August 19.—The Sinn Fein authorities in Dublin announce that the Dail Eireann will consider the reply to the British proposals at a private session on the 22nd instant.

MEET IN SECRET

Dublin, August 18.—Dail Eireann met in secret session today.

Danzig Door To Let Food In

(Reuter's Service)

Washington, August 19.—Mr Hoover announces that a complete agreement regarding the sending of food and relief to Russia has been reached at Riga, and preparations are at once being made for the despatch of food ships from New York to Danzig.

Mr. Hoover has published a letter from President Harding, saying that he trusts the people of America will support the Relief Administration's project.

Clerk Charged With Stealing Cement Of Butterfield & Swire

Accused To Be Remanded In Custody Till Tuesday For Hearing

A clerk employed by Messrs. Butterfield and Swire named J. A. Gardner was charged yesterday in the British Police Court with stealing 50 barrels of cement. The accused was remanded in custody upon application of Mr. Seddon, appearing for the prosecution, till Tuesday morning when hearing of the charges will take place.

Det. Sergeant Yorke gave evidence of arrest and defendant asked bail in order to communicate with his friends and secure legal advice.

In opposing bail, Mr. Seddon stated that the accused had already succeeded in one attempt to leave the jurisdiction of the Court. There was every possibility that he would leave Shanghai if he was allowed to be released on bail.

WHERE THE GLOOM GERM LIVES.

When you feel out of temper with everybody and every thing, when you find work a worry and life seems full of gloom, look to your liver, for that most likely is where the trouble lies, and take a dose of Pinkettes, for therein is the remedy.

Pinkettes gently stimulate the liver, dispel constipation, cure bilious attacks, sick headache, coated tongue, ill-smelling breath. They are laxative perfection and neither gripe nor purge. Try them tonight, you'll feel better in the morning.

Of druggists everywhere, or post free, 60 cents the vial, from Dr. Williams' Medicine Co., 95 Szechuen Road, Shanghai.

Hot Weather Scalp Irritation

THE excessive perspiration set up in the scalp during the hot weather is A REAL DANGER TO THE HEALTH OF THE HAIR AND HAIR ROOTS. Excessive perspiration causes irritation of the scalp. As a counter-irritation scratching is unconsciously resorted to. The finger nails injure the delicate surface structure of the scalp, and permit the ever-present germs to invade the cells which feed the hair roots. These germs attack the hair roots, and are a direct cause of falling hair and dandruff so noticeable in the hot weather.

An application of 'GERMOL' once or twice a week will prevent irritation of the scalp, and will kill invading germs. 'GERMOL' imparts a delightfully cooling and pleasing sensation to the scalp, and is a safeguard against diseases which attack the scalp and hair roots specially at this season of the year.

One bottle is sufficient for treatment throughout the summer. Buy a bottle today.

Trade between China and the United States

Statistics for 1920 show China's Direct Trade with the United States in Imports and Exports to have been *Hk. Tls.* 210,310,413. This is an increase of 55 per cent. over 1913 and it

Has increased 268 per cent. since 1910.

China's commerce with no other nation has increased so rapidly, and it is manifest that the prospects of future trade developments between these two nations can be limited only by the credit and commercial machinery for moving these great cargoes.

BENEFIT FOR 9TH CAVALRY IS ON TODAY

Appreciation Arranged For Individual Visitors

ADMISSION $1.00

Shadow Baseball And Ball Throwing Contest Are Features

Shanghai will have its last chance this afternoon to see baseball as the clever and strong Ninth Cavalry team plays it, when that visiting team meets for the last time this year the nine of the Shanghai Baseball Club.

The game is to be a benefit, with the proceeds of the gate divided 70 percent as bonuses to the individual negro players as appreciations of their efforts in entertaining the Shanghai baseball fans, and 30 percent to the club to help along in defraying the heavy expense of bringing the Cavalry team here for the series.

Every fan attending today's game must pay an admission of Mex. $1.00. Members and non members all are to be taxed alike. The yearly membership card for today at least has no value.

SPECIAL PROGRAM

In return for that said one Mexican bone a special program has been arranged. The Cavalrymen will give a new exhibition of pantomime or shadow baseball, with a few new features added to it. After the fourth inning there will be a long distance throwing contest, with Catcher Martin, the man with the deadly peg, and others, attempting to break the record of 402 feet established three years ago by Mr. Jordan, the sensational catcher of the Cavalry nine which played here in 1918.

A cricket ball will be used in the throwing contest today. The record three years ago was established with a cricket ball, so it will be necessary to keep this year's performances comparative, to use the same kind of ball. The cricket ball weighs approximately one quarter of an ounce more than the regular nine-ounce big league baseball, which, if anything gives an advantage to the thrower, in a trifle more of throwing weight.

There is considerable interest about town in this throwing contest today, among baseball and cricket players and fans. One baseball enthusiast has offered a purse of $100 to any man who can beat Jordan's 1918 record of 402 feet, and if Martin or any other Cavalry or Shanghai player beats that old mark it is certain that he will be given a proper appreciation by the fans.

LOCALS SHOULD WIN TODAY

The game today commences at 3:30 p.m. Dennison probably will pitch, and it might be that Mal Maloney will get into the series at third base. If Bills is out after his little indisposition of Thursday, and either Roeser or Glauque are available to catch, Shanghai will have the strongest team in the field today of the whole Cavalry series.

In spite of the Cavalry's strength and class it is not at all impossible that Shanghai will win today. Local batsmen have had a week's training on first-class pitching, and they are getting their batting eye accustomed to speed and hooks. Thursday not one Shanghai batter fanned. They all were hitting the ball, but not safely. Today they should get more range on the ball and drive them further and safer for a higher score.

Errors, more there cannot be. Shanghai made 10 in the last game. It was their second ascension with the visiting team, and the only two, by the way of the whole season. They surely can't make any more.

To an optimistic supporter of Shanghai it looks like a win for the home boys this afternoon. Don't forget the time, at 3:30, and don't forget to bring a big iron Mexican dollar along, for that is the charge to everybody.

TWO INTER-CLUB BOWLS MATCHES SET FOR TODAY

Recs Entertain S.L.B.C. And Y'poo Clash With Juniors At Hongkew Park

SEMI-FINALS TOMORROW

Records Are Expected To Go In The Three Unplayed Championships

BY "THE SHOT"

Two inter-club matches are scheduled for today, the Recs entertaining the S.L.B.C. while Yangtszepoo clash with the Juniors at Hongkew Park. Both matches are four rink affairs and should, no doubt, prove interesting.

Tomorrow, the much postponed semi-final rink championship game will be played if the elements permit, and no doubt there will be a good crowd visiting the Juniors' ground to witness the tie. An interesting pairs semi-final will be played on the Recs ground on Monday next, when Burnside and Stormes meet Dunlop and Simmons. A special rink is being prepared by the Recs executive and we have no doubt that provision for both players and spectators will be attended to in the Rec's usual efficient manner.

Looking over the championships, it seems to me that we are likely to see records set up in more ways than one. G. Dunlop, the holder of the singles is now in the final and has plenty of admirers who are of the opinion that he is capable of retaining the title.

Again we have Bob Aitkenhead still in all three championships, and should he manage to annex the lot I'm think'ng it would be a record that would stand for many years before being equalled.

INTERPORTERS, NOTICE

The burning question in the clubs at present is the forthcoming interport games. In reference to the Hankow clash we are certain of a strong representative team going up to defend our interests, but I understand names for the visit to our friends in Hongkong are not coming in as the Association would like. It will be a matter for regret if these series are interrupted and I can assure any trundler who can possibly visit Hongkong as an Interporter would come back with pleasant memories as the colony's hospitality is proverbial. One only needs visit the Waysiders Club house to see ample evidence of this in the way of caricatures and cartoons.

The teams for today's matches are:

D. McAlister (skip), P. B. Critchley, J. Marshgreen and S. Chilver. J. Ross Young (skip), A. Crosbie, C. Larsen and A. Raitt. J. Burnside (skip), A. E. Hayward, F. Bridger and J. Brewer. T. Spring (skip), G. B. Stormes, W. Davies and E. M. Smith.

The following will represent the S.L.B.C.—A. D. Bell (skip), F. C. Banham, H. Manwaring and J. M. Robertson. G. Dunlop (skip), C. M. Bain, A. Stokes and C. P. Dawson. O. Crewe Read (skip), J. Buckley, Gordon Wright and F. Fletcher. J. C. MacDougall (skip), T. Harborne, W. A. Turnbull and J. Munro.

Reserves: W. A. Ogden, F. Large, R. Cole and H. M. Gorton.

Default Loses Recs Match with S.C.C. 3-2

The default by failure to report for play of one pair of the Shanghai Recreation Club's sets of doubles yesterday evening for the friendly match with the Shanghai Cricket Club gave the five match tournament to the S.C.C., by a count of 3 matches to two. Discounting the defaulted match the clubs stood tied at two matches to two. The failure of Quincey and Smith to play for the Recs decided the match.

The scores follow:

Clifford and Leslie, S.C.C., beat Ferris and Emamooden 4-6, 6-4, 9-7.

Hill and Richard lost to Madar Brothers, 8-6, 2-6, 2-6.

Benwell and Deeks beat Logan and Roberts, 6-8, 6-1, 6-4.

Hearn and Chandler won over Quincey and Smith by default.

Colley and Fuzzey lost to B. H. Smith and Brand, 4-6, 4-6.

The Recs are hoping for a return match when they may have all of their players on hand to compete.

THREE CRICKET MATCHES ARE ON THIS AFTERNOON

Recs Field And Police And Cricket Clubs Grounds Scenes Of Play

Three cricket matches are set for play this afternoon. The Shanghai Cricket Club "A" eleven meet the Parsee Cricket Club on the Police Grounds commencing at 2:30 o'clock; the S.C.C. "B" team plays the Shanghai Municipal Police on the Recs field commencing at 2 p.m.; and the Recs meet the S.V.C., Machine-gun company on the Cricket Club grounds commencing at 2.

The S.C.C. "A" eleven to oppose the Parsees follows:

A. H. Leslie, E. W. Day, W. C. G. Clifford (Capt.), G. F. H. Bichard, J. R. Harder, H. Langley, P. Simpson, W. H. Smedley, A. G. Hearne, N. Lindop, R. W. Roberts.

The Cricket Club "B" eleven will line up as follows:

R. M. Austin, C. Brook, R. B. Gotch, W. N. Hansell, W. J. Monk, H. E. Muriel (Capt.), J. M. Pearson, T. L. Rawsthorne, J. Robertson, C. E. M. Thomson and S. Vine. Reserves: R. H. P. Reiss, R. E. Stewart and G. H. G. Caulton.

The Police will have the following men in the field:

Capt. Barrett (Capt.), Major Wainwright, Major Bournes, Beatty, J. A. Quayle, S. C. Young, T. S. Fry, J. M. Watson, M. A. Cameron, F. Perkins, J. Carnell. Reserves: G. F. Gabbutt, H. Pelling.

The Recs eleven opposing the M. G. Co. are:

H. B. Ollerdessen, W. T. Manley, C. H. Bhoora, E. G. Barnes, A. J. Willis, T. W. R. Wilson, T. Main, J. Main, A. J. Clark, P. Madar, M. J. Divecha. Reserve: G. Madar.

The Machine-gun Co. will line up against the Recs as follows:

Sgt. Underwood, Cpl. Newman, Act.-Cpl. Hawyard (Capt.), L.-Cpl. White, Gnrs. Leach, Duthoit, Piercy, Baker, Green, Middleton and Dyr. Hawkings. Reserve: Gnr. Baumber.

COUNTY CRICKET

(Reuter's Service)

London, August 18.—The following are the results of county-championship matches concluded today:

At Cardiff.—Hampshire beat Glamorgan by an innings and 32.

At Dover.—Kent beat Warwickshire by an innings and 26.

More Sports On Page 6

Shimidzu And Kumagae Win In Davis Cup Ties

(Reuter's Service)

New York, August 18.—The two opening matches in the Davis Cup tie between Japan and India were contested today with the following results:

Kumagae (Japan) beat Sleem (India) 9-7, 6-1, 6-1.

Shimidzu (Japan) beat Fyzee (India) 6-2, 6-1, 9-7.

Except in the first set, when Sleem's great placing enabled him to work his opponent out of position, the match was an easy one for Kumagae. Sleem's service was soft, and Kumagae returned his deliveries so that recovery was impossible.

Destroyers Win When Huron Are Shy On Hitting

Chefoo Match Is Close In Spite Of Ragged Play By Flagship Men

(China Press Correspondence)

Chefoo, August 15.—Due to poor hitting and not being able to hit at the right time the Huron went down to defeat at the hands of the 26th Division Destroyer Squadron Sunday by a score of 2-1. Hopkins pitched fine ball and had all kinds of stuff. Weaver was not in good form and was touched up for 8 bingles. The feature of the game was the one hand catch of a hot liner by Scymanski and Taylor's fine fielding. Both Dunlap and Horner did fine catching.

The Huron will meet the 35th Division next Saturday and the 26th Division again on Sunday. Knoch will probably perform against the 35th on Saturday and Weaver against the 26th with Draper as utility man, while Ward will probably perform for the 26th.

THE BOX SCORE

HURON	AB	R	H	PO	A	E
Scymanski 3b	4	0	0	3	6	0
Prehm cf	3	0	0	1	0	0
Roberts 1b	4	1	0	16	0	0

POLO CLUB AND LIGHT HORSE IN FINALS TODAY

Tournament Play For George Dallas Cups Goes To This Evening's Winner

The Polo Club and the Light Horse teams which won over the Ewo Past and Present and the Race Club teams in the tournament play for the four George Dallas Cups on Thursday will meet this evening at 5 p.m. on the Shanghai Polo Club field in a four-chukker final.

The Light Horse after their strong showing in Thursday's play, and because of the class and strength represented in its lineup is being selected by polo enthusiasts as the likely winner of today's matches. Two Hongkong interporters, McMichael and Robinson, with David and Crokam, also strong and aggressive players compose their team.

The Polo Club, on the other hand has a third interporter of this year in Brennan, and also an interporter of last year in George Dallas, together with Hine and Fearon. The combination is a strong one and will take a lot of playing to beat.

The Light Horse in their win over the Race Club Thursday finished with a score of 5 goals to 2. The Polo club beat the Ewo team by 3 goals to 1.

HURON OFFICERS TIE IN BASEBALL WITH 26TH DIV'N

Five-Inning Game At Chefoo Results In A 6-6 Stand-Off

LT. JOHNSON GOES HOME

Manager-Outfielder Of The Huron Nine Is Missed In Flagship Games

(China Press Correspondence)

Chefoo, August 12.—Last Sunday the Huron officers and the 26th Division Destroyer officers played at 6-6 tie in a very good game. The Huron officers team was weakened with the loss of Lieutenants Haight, Johnson and McReynolds who have left for the States recently. Lieut. Comdr. Pickhardt and Ensigns Woodson and Threshie did the best hitting.

The Huron has been strengthened with a few additional players:

With the return to the States of Lieutenant Johnson the team loses one of the best outfielders and hitters the team has ever had and also the best officer who ever played on the team. Quick seems to be the best for the position at the present writing.

THE BOX SCORE

HURON OFFICERS	AB	R	H	PO	A	E
Lewis 3b	3	1	0	1	0	0
Threshie cf	3	0	1	0	0	0
Miller c	3	2	1	6	0	0
Kirtland ss p	3	1	1	0	3	0

Summary.—Struck out by Hughes, 4. By Nolan 4. Base on balls—off Hughes 1. Stolen bases: Pickhardt 2, Bogan. Two base hit, Woodson. Hit by pitched ball: McKay by Kirtland. Game stopped by rain in 5th inning. Hits off Hughes: 1 in 3 innings: Off Kirtland: 5 in 2 innings.

RECS TENNIS TEAM GOES TO SECOND PLACE

Five Matches From C.C. Balances Off The Standings

FRENCH CLUB WIN

Japanese Forfeits One And Loses Three To S. C. C.

STANDINGS OF THE CLUBS			
Club	W.	L.	Points
Portuguese	13	2	13
Recs	11	4	11
Cercle Sportif	9	6	9
C.C.C.	8	12	8
Cricket Club	7	13	7
Country Club	6	14	6
Japanese	6	9	6

The seven clubs competing in the City League Tennis tournament are closely grouped this morning as a result of yesterday's fourth round of play. The Recs, which got off to a bad start, and was crowding the Columbia Country Club last week for second position to the strong Portuguese Sporting association players, this week has assumed a firm hold on second place, and is even threatening the leaders for the honors.

The Cercle Sportif by their 4-1 win over the C.C.C. have gotten up in the table into third position only four points behind the lead. The C.C.C., last week a promising second, has dropped into fourth position, only two points from the tail-enders. The Portuguese yesterday did not play.

Scores yesterday evening gave victories to the Recs at 5-0 over the Country Club's strongest players; to the Cricket Club 4-1 over the Japanese, and to the French Club 4-1 over the strong C.C.C. Potts and Roberts were the only pair to win for the C.C.C. Tanaka and Okada were the only successful Japanese couple. The fourth match in the S.C.C.-Japanese play was forfeited by reason of Kuwabara and Yamada failing to show for play.

The detailed scores follow:

Cercle Sportif 4, C.C.C. 1.

Mancel-Smith and Knowles lost to Potts and Roberts, 3-6, 6-3, 3-6.

Hutchinson and Toussaint beat Dawson and R. B. Nichols 6-3, 4-6, 7-5.

Khrenoff and Drummond beat Whyte and Whitescarver 6-4, 6-2.

Fawcett and Eldridge beat Chapman and Daub 7-9, 6-2, 6-2.

Vermey and Koning beat Bogle and Hale 9-7, 6-2.

RECS 5, COUNTRY CLUB 0.

Wade and Ollerdessen beat Leslie and Murray, 6-4, 11-9.

Manley Brothers beat Brown and Seddon, 9-7, 6-2.

Hawes and Wilson beat Skinner

GOOD POSTURING AIDS EFFICIENCY

Women's Bureau Says Factory Output Is Increased By Proper Seating Arrangements

ILLUSTRATED IN BULLETIN

Fatigue Is Greatly Lessened By Overcoming Defects Attributed To Unimaginative Builders

The Bureau of Women in Industry of the New York State Department of Labor has just issued a special bulletin on "Industrial Posture and Seating," said to be the first on the subject published in this country. It is suggested by the bureau that "the seat that never wears out" may be "the seat that wears the worker out.' Elimination, so far as is possible, of the fatigue caused by bad posture or from continually working in one position is the base of the bureau's study and some fifty-two illustrations convey the summary of significant industrial experience available and point the best principles for good posture and seating at work.

"There is no doubt," says the bulletin, "that bad posture reduces the worker unnecessarily quickly to a fagged condition, in which his hand moves with less accuracy and his mind wanders from his job. Fatigue produced by such a cause is in large measure preventable.'

Lack of imagination on the part of those who plan factories and mercantile establishments is said to be the reason for much bad seating. They follow custom's decree, it is pointed out, in performing operations, and make next to no effort to scientifically fit the work to the workers, although a few industrial engineers have come to realise that unnecessary fatigue is needless production loss, and that work must be physiologically balanced to reduce fatigue.

This means the consideration of good posture in the light of increasing production.

"For instance," says the report, "the worker whose supplies are placed nearer the bench top does not tire so easily or so soon as the one who has to reach to the box on the floor. She who sits on a stool so adjusted that her feet clear the floor finds herself tired. These conditions exist; they cause fatigue and constitute sheer, unnecessary waste. Rearrangement of chairs or work benches has increased production in many industrial plants.

"There is a right and a wrong way of doing everything; a right and a wrong way of handling tools and operating a machine. Sometimes learning the right way determines the difference between a skilled and unskilled workman; more often, the right way can be achieved through some simple adjustment of working conditions in the factory which have gone unnoticed through lack of imagination in fitting in old equipment to new conditions.

"The truth is that our inventive genius has played with machines, and let workers fit themselves to machines as best they could. Most machines are designed so that seating is impossible. The operator becomes so tired from work in such a position that her attention flags and she does her work badly or perhaps meets with an accident, but the machine goes on running because no trouble or expense has been spared that it should run smoothly."

Suggestions are made for dimensions for seats for certain processes and arrangements for converting stand-up jobs into ones at which the worker can sit or stand. The following general conclusions and recommendations are made: "First, that posture must be varied; continuous sitting and continuous standing are both harmful. Ideally conditions should allow the worker to vary his position at will because of the rest and the enormous saving of energy that come from a change of position during working hours.

"Second, that work conditions should be such that correct posture is possible, (a) by providing a physiologically good chair, (b) by insuring a proper relationship of the different parts of the work place.

"There is no one chair that is best for all industrial processes. To determine what chair is best for a particular process, the nature of work to be done, the position of supplies and finished work, the equipment at hand, i.e., the height of bench, chair, place for footrest, as well as the height of the individual worker—all these must be considered. To provide a good chair is not enough; the important thing is to bring all parts of the work place into the best possible relationship."

HAIL HEAVIEST HAILSTONE IN ALL HISTORIC RECORDS

(*China Press Correspondence*)

Pingliang, Kansu, August 3.—Some weeks ago I sent you a telegram from Kuyuan which I trust you have received ere this. The conditions in that district as a result of the earthquake were deplorable. Sickness, poverty and misery were rife, indeed. How the people in those parts must have suffered! The first reports given out were that 10,000 people had lost their lives in Kuyuan and its district. Last month, while there, I visited the magistrate, and among other things we spoke of the awful havoc wrought by the quake.

"Yes, and the death toll is much larger than what we first gave out," he said. "According to our latest investigations we can only account for 110,000 people now living out of a population of 180,000 before the quake."

Your correspondent thought that 70,000 killed in Kuyuan and its district were rather too many, but the Magistrate insisted it is the truth. What we saw on our last trip there would move the most hardened heart. Only 25 li west of Kuyuan city the place was barren, the people having been wiped out of existence. Nobody to till the soil, and what places had occupants was also non-tilled because of the lack of animals and implements. Surely, great suffering, and not much money to help alleviate their conditions. If we had thousands of dollars we could do a little for them.

In the districts where reconstructing roads and river beds is carried on, not very many of the men engaged on those projects are the actual sufferers. We have heard from very reliable sources that a goodly number of the men working on those jobs are engaged by some of those in charge, and they come from districts which never had the slightest damage done. If the actual sufferers were employed then we should not say anything. But grafters we shall expose.

On the 30th ult. we had one of the worst hail storms known in these parts. A continual hailing for half an hour, and we have never seen such sizes of hail. They were as large as goose eggs, and did a great deal of damage to roofs, crops, and animals in the fields. Twenty-five li west of Pingliang the farmers brought in a hail lump 14 inches by 8 inches in length and width, respectively. They brought in to the Magistrate.

In that village many homes were destroyed by these big pieces of ice falling from the clouds. Scores of sheep, cattle and wild foxes were killed in the fields. Some people were badly injured.

One shepherd was hit on the head and rendered unconscious and brought in to town. The roof tiles on the Mission property in this city were broken by the score. About a dozen and a half panes of glass were broken also on the station. The people were greatly frightened. Thunder and lightning preceded this hail storm.

The people in Sian seem to be very much pleased now that the new Tuchun has arrived. General Feng Yu-hsiang took the city and those of General Chen's troops who were not quick enough were captured in the west suburb and immediately disarmed.

Chen fled for his life toward Hsieniang, across the Wei River, west of Sian, and kept right on going to Hingping, his headquarters, where he got into a sedan chair and went into the southern mountains. Brave Chen Chu-fan, who thought he could resist any and every one, finally had to run away from a Christian general! Chen had established himself in Hingpinghsien, where he had an improvised arsenal, and all kinds of telegraph accessories. Where he is now we up here don't know.

We do know, though, that the families of some of his generals are now in this city. General Peh, who was stationed in Li-chuanhsien, sent his family here quite a few weeks ago. Where Peh himself is, we do not know just now. Chen's glory has faded, because of his fleeing into the mountains. In the camp outside of the West Suburb of Sian a great big chorus is constantly heard. General Feng's men are singing hymns and the populace of Sian are seemingly at ease.

Wherever General Feng and his men are, the people are safe. As soon as they occupied the tremendous camp outside of West Suburb he sent a couple of his colonels to the foreign missionaries asking them to send men on Sundays where five services were guaranteed them at the same time. Each meeting was to have five hundred soldiers. What a contrast to most of the encampments in China! Where the Gospel of Jesus Christ is predominant there is bound to be a mighty change. Oh! that we had more officials of General Feng's type. Because of his honesty and justice he is highly respected by his men.

We have had a very wet summer in these parts this year. In fact, too much of it. Trust we might have a let up now. The cart roads are nearly impassable, mud over the hubs of the carts in many places.

DR. RATHENAU PAYS TRIBUTE TO LOUCHEUR

Reports To Committee Urging Export Index Change And Big Shipment Of Goods

Berlin, June 18.—Dr. Walter Rathenau, Germany's new Minister of Reconstruction, told the Reconstruction Committee of the State Economic Council today that two points must receive special attention in solving the complicated reparation problem—first, as it is impossible to pay the entire reparation in gold, Germany must do her best to deliver high class commodities in place of gold; second, an export index figure must be found to replace the present one.

Dr. Rathenau also told the committee about the conference at Wiesbaden between himself and Louis Loucheur, French Minister of Reconstruction.

"We sat together at a table facing one another like two business men," said Dr. Rathenau. "During the negotiations with M. Loucheur I was particularly pleased to notice the objectivity he used in caring for the interests of his country. I was pleased to meet a man who, like myself, has the intention to treat great and important problems without passion or prejudice.

"On the other hand, of course, Loucheur knows precisely how large and far-reaching are the rights of his country as compared with ours. I realise that he will not waive the slightest fraction of those rights."

Dr. Rathenau declared a huge apparatus must be constructed to take care of the claims of the 2,800,000 inhabitants of the devastated regions of France. These will send orders which the Germans will execute in compensation for their losses.

The Reparation Guarantee Commission started work June 17. The commission will concern itself chiefly with a series of conferences with the Ministries of Finance and Reconstruction, will keep an eye on the industrial developments of Germany and will carefully investigate as to whether the export index needs changing. Numerous trips throughout the country are planned, so that present economic conditions may be studied.

Recs Tennis Team Goes To Second Place

(Continued from Page 5)

Turner and Saunders, 6-2, 6-2.

White and Quayle beat Fearon and Wilkinson 4-6, 6-2, 6-1.

Brand and Willis beat Denham and Hill, 7-5, 6-4.

S.C.C. 4, JAPANESE 1.

Middleton and A. F. Wheen lost to Tanaka and Okada, 6-4, 5-7, 0-6.

Bickerton and Graham beat Hisaye and Oda, 7-5, 2-6, 6-1.

Butchart and Hansell beat Matsunaga and Oka, 4-6, 6-3, 6-1.

Caulton and Lunt beat Kuwabara and Yamada by default.

Lanning and Wainwright beat Kumura and Yasukuni, 6-0, 6-4.

This excursion affords an excellent opportunity of getting away from town for a day into the beautiful country-side during the best period of the year.
The 10 hours at Henli give ample time for rowing, swimming, or houseboat enjoyment.
At Kunshan the 9½ hours can be enjoyably spent in visiting the Gardens and Pagodas. The latter stand on the summit of Kunshan Hill, inside the city walls and can be reached in half an hour by rickshaws or by walking through the city from Kunshan station.
Soochow is noted for the well kept Private Gardens and also Tiger Hill with its Pagoda on the top, and 8 hours between the arrival and departure of the Sunday Special can be well spent in seeing these places. The city temple and silk shops inside the city are also well worth a visit. There are several Hotels at Soochow, at which foreign food is served.
Wusih city is a great silk center, and the 6 hours before the train is due to return can be filled by taking a trip to Wei Hill, two miles from Wusih Station, which can be easily reached by rickshaw, sedan chair or boat in the course of an hour. Those who climb to the top of the Hill will be rewarded with a magnificent view of Wusih city, and the Great Ta Hu Lake.
Time-tables and copies of illustrated pamphlets giving full information in regard to the above, and other points of interest can be obtained on application at the Enquiry Office Shanghai North Seats on the train can be reserved by telephoning North 3199.
Acting Traffic Manager,
Shanghai North Station.

Conseil D'Administration Municipale De La Concession Francaise de Changhai
MUNICIPAL LOAN OF 1921
(20,000 debentures of Tls. 100 each).
Rate of interest 8% per annum
The "Conseil d'Administration Municipale de la Concession Francaise de Changhai" hereby invite subscriptions for 20,000 debentures of Tls. 100 each, according to the resolution passed at their General Meeting on May 30, 1921.
The conditions on which the Debenture Certificates will be issued are:—
1°—The Debenture Certificates are transferable, and the person whose name is enfered in the Register of Debenture Certificate or Certificates, shall alone be recognised and treated by the Council as the lawful and rightful holder and owner of such Debenture Certificate or Certificates.
2°—The loan will be redeemable at par (Tls. 100) in not less than 10 years and not more than 30 years, from 1st July, 1931 and according to the figures determinated by the Council.
3°—The loan will bear interest at 8% per annum, payable on the 30th day of June and 31st of December in each year, when interest warrants will be issued to the registered owners.
4°—The property and income of the Municipality, deducting those which serve as security provided in the Municipal Loans of 1903, 1911, 1914 and 1916 are the security for the repayment of the money advanced and for the interest thereon in the present loan.
The Members of the French Municipal Council are not personally liable in any way for the payment of either principal or interests.
5°—Applications for debentures will be received at the Secretary's Office, Rue du Consulat.
A cheque representing the amount of debentures asked for must be deposited at the same time.
6°—Applications for Debentures under par will not be recognised by the Council.
7°—For further informations, apply to Mr. P. LEGENDRE, Secretary, French Municipal Council.
Shanghai, 1st July, 1921.
P. LEGENDRE,
40063 Secretary.

Jute Fabrics

Mr. J. A. Fredericks states as follows in the jute fabrics circular dated August 17:

The gunny market though slightly better owing to a small demand for small parcels is still in a quiescent state. Calcutta prices are about 5 percent higher than local ones. Hessians have been done at Tls. 78.

Cotton

Messrs. J. Spunt and Company state as follows in their cotton market report of today:

China Cotton:—Outside of the usual operations at the local Cotton Exchanges, our market during the past week remained more or less in a dormant state, being practically devoid of any demand on the part of the Mills generally yet prices on the local staple showed firmness and remain so at the close stimulated by reports of damage done to the crop in various sections of the Cotton Delta which came under the sway of the typhoon recently experienced.

The gradually dropping tendency in Mid-American, the favorable outlook for the Indian Cotton Crop and the temporary decline in local yarns tend to encourage a waiting policy on the part of those in the Textile industries who are not in immediate want of supplies and meanwhile keep themselves on the alert for developments to evolve on the scene as the time approaches for the new season cotton to reach the open market.

However from a telegram to hand at the last moment as this goes to press the New Crop condition in the U.S.A. is reported to be very unfavorable. Tone of the market Firm.

Rubber Prices

Messrs. R. N. Truman and Company have received the following telegram from their Singapore agents in connection with the auctions held at Singapore on Wednesday, August 17:

No. 1 Smoked Sheet $0.27½ per pound equivalent to 0s. 7½d. ex warehouse Singapore.

No. 1 Crepe $0.28½ per pound equivalent to 0s. 7¾d. ex warehouse Singapore.

Market steady. Offered 413 tons; sold 311 tons.

Messrs. J. A. Wattie and Company have received the following telegram from Messrs. Barker and Company, London dated August 17:

Average Spot price standard quality Ribbed Smoked Sheet 7¾d.

Average Spot price Standard quality First Crepe 8d.

WEATHER

The typhoon will advance about latitude 30 degrees, and may arrive in the neighborhood of the Saddles tomorrow during the day. One may expect strong gales along the coasts of Kiangsu and Chekiang, with exceptionally high tides.

MARCH OF EVENTS

BY BRUCE HOPPER

ON with the dance, is the latest Moscow catchword. Those who cry down the lilt and jazz of modern dancing will be delighted to learn that Isadora Duncan is reported enroute from Paris to Moscow, at the personal invitation of Krassin. Her declared object is to prove that the eurythmic art, which she claims to have rescued from the oblivion of Grecian ilex groves, is the cure-all remedy for man's spiritual famine. Hence the application to Bolshevism.

Madame Duncan announces herself as the discoverer of communism, and cites her poverty as a proof of living up to its principles. She further confesses an impetuous attraction to Krassin, which might indicate to narrow-minded people, who never read Plato, that the dancer's quest for an ideal man to function as perfect father to superperfect children has thus far been bereft of eugenic results.

Lenine scored for Moscow when his thinly chiselled nose was preserved for posterity by the sculptress, Mrs. Sheridan. Krassin proposed even greater service to the state by giving Isadora Duncan a thousand Russian maids to turn into Greek statues. Whatever may be said of Soviet politics the leaders are certainly the beaux gallants with the ladies.

* * *

THE height of foolishness, we are told, is the scramble of the ostrich to bury its head in the sand when pursued by the hunter. And yet it is a question if the chosen creature, man, is not just as absurd in his reasoning about what constitutes protection.

Today, while the weary world is loudly calling for peace, and international talk-fests have become the mania, men of inventive ingenuity are applying even more than in the past their frenzied efforts to perfect terrifying engines for human destruction. In France we now have a recoil rifle which can throw a pound grenade two miles. A new rivet gun developed in America can hurl a five-ton projectile 300 miles, and a terrible liquid, called Lewisite, can be sprayed like rain from aeroplanes, each drop of which holds the potency of certain death.

The cry of the inventors has been that terrible instruments lessen the danger of nations going to war. The tragic fallacy of such doctrine was proved in the ghastly lessons of the great war. But such things are remembered only by the men who stood knee-deep in the trench mud and watched the creeping gas clouds approach, and with them the moment of supreme agony.

* * *

A curse of malignant genius leads to the creation of such instruments as Dum-Dum bullets, first used at the arsenal of that name near Calcutta, poisonous gases, liquid flames and explosive bullets. Many military experts suspected the Germans of using disease shells to spread pestilence in the Allied trenches. Whether or not this charge was true it is certain that the scientific cruelties of civilised man make the atrocities of ancient savages seem like refined mercy.

The history of war is a record of the race between attack and defense. The Roman legions perfected attack, and nothing then could withstand their assault. Later, from his battlements the medieval baron could laugh at attacking parties with their ramming engines until gun powder made both the coat of mail and the ramparts vulnerable. In modern years we have seen the desperate race between projectiles and armor plate. The main contest between destruction and protection has now shifted to chemical warfare. Masks have been devised against poisonous gas, but there yet remains to be discovered a suit which will defy the penetrating deadly liquids.

Advice from Washington bids the world hope that the prevention of such torturous instruments of war will be on the agenda of the Pacific conference. As early as 1899 the Hague Peace declarations forbade the use of expanding Dum-Dum bullets and asphyxiating gases, but we all know how the rules were observed during the world war.

* * *

STILL more effective as a means to prevent a recurrence of the chemical horrors of the war would be to pit the inventors against each other on the battlefield, armed with their latest creations. Thus far they have congratulated themselves on making human destruction easy for others. Let them face their own liquids and gases, and bring the chemical war to its most satisfactory conclusion, which would be their extermination.

Even Cells Can Acquire Education

That the cells of our bodies—or those of the lower animals—are actually teachable is the conclusion the famous English physician, Sir T. Clifford Allbutt, has come to. In a recent address he said:

"When the microbe finds itself in the host's body it may be wholly out of tune, or wholly in tune, with any or all cells that it approaches; in either case presumably nothing morbid would happen. Morbid happenings would lie between this microbe and body cells within its range but not in tune with it. Now, there seems to be reason to suppose that a microbe, on its approach to a body cell only just out of its range, may try this way and that to get a hitch on. If so, the microbe, at first innocuous, would become noxious. So, on the other hand, body cells may educate themselves to vibrate in harmony with a microbe before dissonant, or there may be mutual interchange and coadaptation.

"But, if things be so, surely we are face to face with a marvellous and far-reaching faculty, the faculty of choice, and this rising from the utter bottom of biology to the summit—formative faculty—'auto-determination,' or, if you please, 'mind.' Can the microbe do as the retriever does when with a hare in his mouth he comes to a gate? He tries this way and that, then thrusts the hare under the gate, leaps over and pulls the hare through. So the microbe tries it on this way or that till it succeeds by self-education in the school of experience. This is not merely energy but choice—plasticity driven to choose or fail; thus new devices are tried and new habits established."

The Rhyming Optimist

BY ALINE MICHAELIS

Not long since when folks were sickly they took tonics, potions, pills which they thought would cure them quickly of all sorts of aches and ills. And whenever they were ailing, feeling feeble and infirm, for the doctor they went wailing, knowing he could oust each germ. Now the mode is changed completely; if an old man or youth says he isn't sleeping sweetly, why the doc says: "That's a tooth! Teeth are cause of all your trouble; you should have them pulled today; ills will vanish like a bubble once those teeth are gone to stay. If you're doomed to sleeping sickness, asthma, hiccoughs, dropsy, gout, these will pass with pleasing quickness if you have your teeth pulled out." Since this remedy's a wonder, serving humankind so well, would it work the same, we wonder, for the earth on which we dwell? For our planet suffers evils, war and murder, force and wrong; like a lengthy string of devils these have always tagged along. Maybe it would cure the errors of the nations' hate and doubt if all ceased from warlike terrors and the fighters' teeth were out.

Garrett P. Serviss's Article

Earth Practically At Mercy Of Huge Sun, Whose Electro-Magnetic Waves Make This Planet Dance

BY GARRETT P. SERVISS

By an interesting coincidence, the afternoon before the great "magnetic storm" that gripped earth on Saturday, May 14, filling the heavens that night with marvellous auroral curtains, and the intimations of whose coming, according to telegraph and telephone workers, had been perceptible many hours in advance, I happened to catch a glimpse of the sun's face through the cloudy skirts of a Spring shower and, in consequence of some fit of psychological accord, was impressed, as I do not remember ever before to have been, with a sense of the nearness of that tremendous body and of the helpless exposure of the earth to its power.

The perfect circle of its white disk, showing with exquisite clearness through the veil of mist, was poised near the top of a giant tree. Accustomed though I am to the aspects of astronomical objects, I was struck with a sudden new appreciation of the great size of the sun. There, ninety-three million miles distant in space, it hung as large to the eye as the half-foot ball on a flagstaff only fifty feet away.

EARTH AT MERCY OF SUN

Suppose that ball were ablaze with a temperature of 10,000 degrees and alive with electro-magnetic energies of inconceivable intensity, and suppose that a speck of matter hardly more than the twentieth of an inch in diameter, subject to the control of the same energies, were circling around it in an orbit from which it could not escape, at a distance of only eighteen yards, while between the two there was no screen, even of air, but only an "ether" whose sole purpose was to convey without obstruction all kinds of radiant energy—in that case would it be any wonder if the circling speck responded to every impulse sent out by the intensely energised ball?

But these proportions of size and distance are practically the same as those existing between the earth and the sun. Then there is no real cause for surprise in the fact that when a great electro-magnetic wave starts from the sun, owing to some sudden outbreak of energy there, the little earth, lying so near and being itself a magnetic mass, feels the effect as soon as the wave reaches it.

Looking at the sun looming through the mist with the naked eye, I did not notice the two spots or spot groups side by side that were fast approaching the solar Meridian and were within a few hours to become the cynosure of almost every astronomer on the earth because of the magnetic disturbance on our planet with which they were to be associated. If I had been looking for them I would have seen them easily enough, as I did the next day, with no optical aid. But I could not have seen the earth if it had been lying on the sun in place of one of those spots. The angular magnitude of the earth at the distance of the sun would equal that of the head of a very small black pin about fifty feet away. In fact, the earth would be invisible except with a telescope.

There is another way of getting a "realising sense" of the sun's magnitude that is worth trying for the pleasant exercise which it furnishes to the imagination. Look up at the full moon some night, and consider the fact that she is very nearly 240,000 miles away. Meditate on that until the immensity of 240,000 miles, as compared with the greatest distances with which regular human affairs are concerned, sinks into your mind.

Then try to imagine the earth placed inside the sun, with its center at the sun's center, supposing the sun to be only a hollow spherical shell. Standing on the earth in that situation, and looking up toward the inside of the great solar shell above you, you would find not only that the moon had been able to enter with the earth into the sun's interior, but that it continued to revolve around the earth there without obstruction, just as it had done before, and with almost as much space between it and the surrounding shell as there was between it and the earth.

In truth, the inside of the sun's she would be like a second heavens for the inhabitants of the earth at its center, being situated about 430,000 miles above their heads. If it were studded with enormous electric lights, they would look like stars and constellations, but they would have to be truly enormous to be visible 430,000 miles.

TO MAKE SUN SEEM SMALL

The only way to make the sun seem small is to compare it in imagination with some of the greater suns of space. As the great man of the village shrinks in the capital, so the sun becomes quite small when measured by the dimensions of his grander "peers."

Think of Betelgeuse, apparently twenty-seven million times larger in bulk than the sun! The earth could travel around the sun inside Betelgeuse as easily as the moon could travel around the earth inside the sun. But Betelguese is only a sphere of inconceivably rare gas, while the sun, though essentially gaseous, is one-quarter as dense as the earth. Each serves its purpose, which in either case may not be much concerned with beings like us.

Health Nuggets

It took Ehrlich 606 experiments to discover a way to give a man arsenic enough to kill syphilis germs in his blood without running the risk of killing him. He called the result 6-0-6 or "salvarsan." In this country the United States government supervises its production through the Hygienic Laboratory of the Public Health Service and calls it arsphenamine.

The scratch of a lion's claw is almost as deadly as his bite, for he never cleans nails, and he always carries under them rotting meat that is rank with deadly germs. Flies and water bugs do the same thing on a smaller scale; and: "Don't forget," says the U.S. Public Health Service, "that they never wipe their feet."

And now we have the woman dental hygienist. She does not pull nor fill teeth and consequently is not a terror to children. Instead, she limits her work to cleaning and polishing the teeth above the gums. The U. S. Public Health Service says that this is most helpful in making the gums healthy and in preventing decay. Twelve States have already legalised such practice by women.

Bedbugs are easily gotten rid of, says a recent publication of the U. S. Public Health Service, by exposing them to extremes of temperature. Cold as low as 17 F° above zero or as high as 100 F° above, if continued for two or three days, will destroy them. The cold might be applied in the north, for instance in country houses whose owners leave them unoccupied during the winter, or in houses that can be evacuated for a few days. The Service offers no suggestion as to the heat end of the problem, but a roaring furnace for two or three August days might serve—if the owners could camp out for the interval.

HARMONY

Ireland, the land of song, is out of tune and discord is rife. Two peoples, two religions, and seemingly as far apart as the poles!

Ulster determined to stand fast as a proud part of that mighty structure, the British Empire, and the rest of the Emerald Isle clamoring for separation.

In music discord can make grand harmony. Can the majors and minors and discords of Irish politics ever again produce the music of unity and freedom?

A reading of yesterdays cables on the latest developments in the Irish situation would make the pessimist aver that a solution is impossible; it might almost call for a doubt from the optimist. But while there is a sun still shining in the sky, all can be right with the world, if we, its people, will only have it so.

Shakespeare in his "Merchant of Venice" teaches the great lesson of life. The last act of this great play opens with the Jew and the Gentile (Jessica and Lorenzo) representing any two forms of bitter antagonism, in embrace of love under the calm expanse of heaven. Lorenzo looks from earth up to God's universe, of which it is a part:

"Look how the floor of heaven
Is thick inlaid with patines of pure gold;
There's not the smallest orb that thou behold'st
But in its motion like an angel sings,
Still quiring to the young-eyed cherubims;
Such harmony is in immortal souls;
But whilst this muddy vesture of decay
Doth grossly close us in, we cannot hear it."

It is the "muddy vesture" of doubt and the "decay" in politics that today makes Ireland "the poor distressful country."

Let the musicians enter, and with soft strains represent to the ear the immortal harmony of sympathy.

* * *

Shakespeare uses music as the type of that higher harmony which is within the soul. To lack that is to be "the man that hath no music in himself, nor is not moved with concord of sweet sounds." Because of that want, he

"Is fit for treasons, stratagems, and spoils;
The motions of his spirit are dull as night,
And his affections dark as Erebus:
Let no such man be trusted. Mark the music."

The music, thus associated with the harmony of human souls, and of the great visible universe, under which two forms of antagonism sit as lovers, still plays today. Let man establish the kingdom of heaven within him, let him strive after a sympathy that blends into one sweet sound the discords of selfishness, then truth will shine out royally in the supreme glory of real brotherhood.

"How far that little candle throws its beams!"
So shines a good deed in a naughty world.

"When the moon shone, we did not see the candle."
"So doth the greater glory dim the less:
A substitute shines brightly as a king
Until a king be nigh, and then his state
Empties itself, as doth an island brook
Into the main of waters. Music! Hark!"

"COMMANDER" Stories

A certain bishop, noted for his strict views on marriage questions, when travelling in Egypt was particularly grateful to a dragoman for his efficient services, and gave him a handsome present at parting.

On his return journey the bishop again met the man, who said: "It was very good of you to help me as you did, as it enabled me to do what I had long desired."

"And what was that?" asked the bishop.

"It enabled me," said the man, "to marry a third wife."

Be A Foster Mother

BY W. A. McKEEVER

(Professor in the University of Kansas and a Well-Known Educator)

Attention, you well-to-do woman with the big house and no child to litter it up and make a noise in it—sign up as a temporary mother. Take a little stranger into your home for a few weeks and thus give and receive a blessing.

This country is now full of foundling hospitals swarming with babies. Conditions which need not be discussed here have given us more than our share of nameless little ones. These are 100 percent Americans just the same as other children, and they deserve of this country the same 100 percent "life, liberty and the pursuit of happiness" which we mean to accord our own.

The foregoing idea, of establishing within close range of the foundling hospital a list of temporary caretakers, is spreading among various cities.

Under its provisions any good woman may be enrolled as a foster mother. She must fill out a record showing her character and equipment, also her motive. She may conduct a sort of branch day nursery, where the little ones may be brought to and from her place for each day's attendance.

Or she may take a child or two for special care pending its permanent placing. One fond child lover whom I know receives only difficult cases of sick and delicate children for the purpose of restoring them to health. The hospital pays a reasonable allowance for the service.

But the big idea here is not the method; it is the purpose. This fair land of ours is receiving an unprecedented company of infant callers who come from the Great Somewhere without recorded geneology and without even a name. I want the good women of America to open not only their homes but their hearts to these little strangers becoming a "receiving line" for them.

Finally, the coming of a brief-time baby visitor into your house may open a new and interesting chapter in your own life. Who knows? It may be that your love for the little ones has become seared over with the indifference of years and that divine grace has thus been slowly shut out of your inner soul. Listen! I hear a baby voice crying for you just now.

THE CHILDREN'S ENCYCLOPEDIA

Answers all the questions a child can ask. All articles are written in a simple style and in plain language. Used by over 1,000,000 families.

Breakdowns And The Mind

BY BRICE BELDEN, M.D.

Medical authorities claim that much of the insanity occurring at present could be prevented. It has been fairly conclusively proved that at least one-third of the cases of complete mental breakdown are preventable. As millions of dollars are spent each year for the upkeep of the mentally unwell any method of prevention of this condition would be of enormous value to the community.

Alcoholism is one of the most common causes of insanity, causing those of a tendency toward mental disorder to lose their mental equilibrium when they might have succeeded in living sane enough lives without the handicap of alcohol. All excesses tend to handicap the already weak mentality.

Acute disease may leave the mind in an unbalanced condition, and it is therefore important that children be protected from infection by the more serious of the diseases and that when they have contracted these diseases their convalescence be watched carefully, in order that there will be no complications involving other serious infections.

Injuries to the head and heat exhaustion, and also toxins or poisons formed by unhealthy conditions in the body, can cause the mind to become unbalanced.

Children with neurotic tendencies should be carefully watched.

Siccawei Weather Reports

18.—The typhoon advances, possibly with a reduced speed, through the Van Diemen Strait. Cyclonic gales in it as far as the Middle of the Yellow Sea (s.s. Eucador); Northerly winds along our coasts. A new low center appears to the E. of the Marianas. Fine day, but rather damp here and in the neighborhood; overcast or rainy at places in the South.

19.—The pressure continues steadily to fall. Overcast and damp morning. Fresh breezes, backing gradually to N.N.W.

Passengers Departing

Per I-C. s.s. Kutwo for Kiukiang: Mr. G. S. Foster Kenip, for Hankow: Mr. and Mrs. E. C. Pinkham, Lieut. G. M. Smead, Messrs. Hume, C. T. Williams, K. O. Mackenzie, E. S. Moore, J. Churcher.

Express, Mail and Passenger Steamer
"LOONG MOW"

Lieut. Commander S. Hall, R.N.R. (Captain)

The best time to make this wonderful voyage is during the months of September, October and November. During these months, the "Loong Mow" will maintain a regular eight-day service from Ichang to Chungking and special arrangements will be made for passengers from Shanghai and lower river ports to connect with the "Loong Mow" at Ichang.

The "Loong Mow" is the most luxurious river steamer in the Far East and is fitted with every modern comfort and convenience for passengers. A most excellent service and cuisine is provided.

Far East News Notes

ANCIENT CHINESE WRITINGS PROMISE TUBERCULOSIS CURE

Fukusaburo Kurakami, a son of a former retainer of the Hitotsubashi clan and an ardent student of Chinese classics, claims that he has discovered a cure for tuberculosis through reading ancient Chinese writings. For 10 years he has devoted his time to the study of the remedy which he came across while reading Chinese medical remedies. The herbs, he declares, are Japanese and will without fail cure all cases. Since the perfection of the discovery recently Kurakami claims to have cured 30 persons of the disease.

His offers to leading scientists and doctors have been shunned, however, and the cure is still without scientific confirmation. His latest proposal, requests that the cure be tried was made to Mr. Tashimaro Sato, president of the Red Cross Hospital in Tokio. The Chugai Shogyo says that the cure is being used by Dr. Kusumoto in San Francisco.

Kurakami is at present busy with similar experiments, hoping to adapt the ancient Chinese remedies for cancer and leprosy.
